

Saikiran Devalla

Consultant – SAP PP

7780733087 | saikirandevalla1@gmail.com | Hyderabad, India

Professional Summary

SAP PP Consultant with 4 years of experience in SAP R/3 and SAP S/4 HANA Production Planning. Skilled in configuring and supporting PP modules, handling production orders, BOMs, routings, and work centers. Expertise in MRP strategies (Make-to-Stock & Make-to-Order), variant configuration, and batch management. Strong experience in end-to-end implementation, support, data migration (LSMW), and integration with MM, SD, QM, and PM. Excellent problem-solving, analytical, and communication skills with proven success in client collaboration and user training.

Skills

- Primary: SAP Production Planning (PP)
- Configuration of production orders, BOMs (variants/alternate/multi-level), routings, work centers, and capacity planning.
- Expertise in MRP processes with different MRP types to ensure material availability.
- Proficient in batch management configuration at material and plant level.
- Experience in data migration using LSMW.
- Knowledge of integration with MM, SD, QM, and PM modules.
- Secondary: SAP Quality Management (QM)
- Inspection planning, quality notifications, and control processes.
- Managed inspection processes for incoming materials and finished goods.
- Designed and implemented quality control labels as per industry standards.

Other Tools & Software: SAP ECC, SAP S/4 HANA, SolidWorks, MS Office (Excel, Word, PowerPoint)

Professional Experience

- Consultant at Incresol Software Solutions Pvt Ltd, Hyderabad (Dec 2024 – Present).
- Associate Consultant at Unisoft Global Service Pvt Ltd, Bangalore (Nov 2021 – Nov 2024)

Projects

1. SAP S/4 HANA – Support Vishnu chemicals (Manufacturing, SAP S/4 HANA 2022)

- Provided day-to-day support for SAP PP processes, resolving user issues and system errors.
- Monitored MRP background jobs and ensured timely execution of production planning runs.
- Handled incident management and service requests within defined SLAs.
- Collaborated with cross-functional teams (MM, SD, QM, PM) to resolve integration issues.
- Supported master data management including BOMs, work centers, and routing updates.
- Assisted in period-end activities such as order settlement and production confirmations.
- Provided end-user training and documentation for smoother process adoption.
- Worked closely with business teams to analyze recurring issues and implement long-term solutions. Gathered business requirements, prepared Business Blueprint.
- Configured material master, work centers, routings, BOMs with variant configuration.
- Managed variant super BOMs, object dependencies, and K-MAT material type.
- Configured MRP processes for optimized demand planning and procurement.
- Performed data migration of activity types using LSMW.
- Involved in unit testing, documentation, and go-live support.

2. SAP S/4 HANA – Rollout Astra Micro Wave Ltd

- Analyzed business processes at new plants/sites and identified gaps with the global SAP template.
- Configured SAP PP objects (material master, BOMs, work centers, routings, and production orders) as per rollout requirements.
- Adapted global business processes to local statutory and operational needs.
- Migrated master data and transactional data from legacy systems using LSMW or other data migration tools.
- Conducted integration testing, UAT (User Acceptance Testing), and supported cutover activities.
- Prepared training materials and provided end-user training for smooth adoption.
- Collaborated with cross-functional teams (MM, SD, QM, PM) to ensure proper integration.
- Provided post-go-live support, monitoring system performance and resolving production issues.

3. SAP S/4 HANA Implementation – American Air Filters Pvt Ltd (Manufacturing, SAP S/4 HANA 2021)

- Gathered business requirements, prepared Business Blueprint.
- Configured material master, work centers, routings, BOMs with variant configuration.
- Managed variant super BOMs, object dependencies, and K-MAT material type.
- Configured MRP processes for optimized demand planning and procurement.
- Performed data migration of activity types using LSMW.
- Involved in unit testing, documentation, and go-live support.

4. Support Project – WINC, Australia (Sales & Marketing, SAP ECC)

- Monitored MRP background jobs and system performance.
- Collaborated with the IBP team for forecast data integration into SAP ECC.

5. SAP S/4 HANA Implementation – American Air Filters Saudi Arabia (Manufacturing, SAP S/4 HANA 2021)

- Worked closely with business stakeholders to understand production planning and manufacturing requirements.
- Configured SAP PP objects including BOMs, routings, work centers, and variant configuration.
- Designed and implemented quality control labels ensuring compliance with industry standards.
- Performed data migration and participated in unit testing and go-live support.

Education

- M.Tech – Mechanical Engineering | BVRIT, Hyderabad | 2019–2021 | CGPA: 9.13
- B.Tech – Mechanical Engineering | SMEC, Hyderabad | 2016–2019 | Score: 67.8%

Internship & Training

- Indian Railways, Hyderabad – Project: Maintenance of Diesel Locomotives.
- CADSYS (India) Ltd – Industrial Training in GIS Mapping.

Extra-Curricular

- Participated in FIT India 3K Run.
- Awarded for outstanding performance in curricular activities at Global Education Fair.
- Showcased project model at National Level Project Expo – TECHNOVATION.

Personal Information

- Date of Birth: 18 Sep 1997
